

Hello Flowr Agency,

I hope this message finds you well! Thank you for considering my proposal for

"Add a feature to track past orders."

For your project, my expertise in ASP.NET Core, Web APIs, and C# aligns perfectly with the requirements, and I'm confident I can bring your vision to life. As an added value, I can provide clean, well-documented code along with unit tests to enhance the reliability and maintainability of the final product.

Here's a brief outline of my proposed timeline: I will deliver the project by May 5th, 2025. You'll receive the files in C# format

To complete this work to the highest standard, I'll be using Visual Studio 2022, ASP.NET Core 8.0, and Postman for API testing.

Thank you for taking the time to review my proposal! I'm excited about the potential to work together, and I'd be happy to answer any questions or schedule a call to discuss the details.
